# Introduction

M S World has carved a niche for itself in India as well as global markets and is recognized as an iconic name in the multi-commodity industry. The promoters of the organization hold stellar experience of 28 years, working closely in the manufacturing and trading industry. M S World management has had successful stints in the fields of manufacturing and building & construction materials, petrochemicals like PVC, HDPE, LDPE etc, energy products and leverage their learning into building a coherent ecosystem around customer satisfaction.

Established in the year 2018, M S World's management comprises seasoned professionals with strong credentials that help us carve a niche in the multi-commodity industry.

M S World has a team of dedicated and experienced professionals, who work towards addressing the client's requirement and deliver on time while maintaining quality standards at all levels. With a strong team of skilled professionals guided by ingenious promoters, MSW promptly leverages its sourcing know-how in order to deliver on our promises made to the customer.

# Inspiration

Accomplished entrepreneur with domestic & international experience in managing business operations, P&L oversight, multichannel product distribution and marketing involving both start ups and growth organizations. Result oriented, decisive leader with proven success in new market identification & strategic positioning for multiproduct trade

Maneesh, a Bio-sciences major, has more than 27 years of experience in Sales & Marketing across multiple sectors especially private aviation, pharmaceuticals, agriculture, mining and commodity trade. At his helm he has taken the Business Development of the group to a completely different altar owing to his sound man management skills. Maneesh started his career in the early 90's from Russia, where he pioneered the chartered aviation sector and pharmaceutical business as the General Director in his startup BIO International, Moscow.

His domain experience on energy commodities combined with extensive on ground knowledge has helped him develop a unique business model in the trading community ,whereby he has been able to conjugate all leading players of the related industry on one uniform platform thereby making the process of trade a very thorough, efficient and an utmost transparent one. At present he is operating two companies in UAE called M S World FZ LLE & AMS VENTURES GENERAL TRADING LLC.

# About MS World

MS World is a boutique marketer of selective commodities. It has worldwide activities in sourcing, processing, refining, transporting, financing and supply of energy products. We strive to be a reliable and competitive partner in the markets in which we operate, and we aim to support our customers and suppliers at each stage of their demand, expansion and development. We do things differently, and the difference lies less in what we do than how we do it.

Our customers around the world are active in a wide range of industries, such as oil, power generation, cement, steel production and leather goods. They rely upon our established global network for the supply of the products. These commodities either originate from our own strategically tied production assets or are sourced from third parties.

Our team has a long-term, integrated and committed approach to trading across the products. We focus on providing products and solutions, built around a broader range of commodities—all of which serves to enable our clients to meet their objectives in accordance with their existing technologies.

We believe there's more to global reach than just having a physical presence all over the world. Global reach is the ability to see the bigger picture, gain local insights and anticipate how changes in demand in one part of the world will affect supply to another.

# About MS World

## OUR VALUES

M S World's virtues are shaped around two beliefs – integrity and execution

## INTEGRITY

We strive to conduct fair, prompt and transparent business with our customers, complying with all commercial standards.

## EXECUTION

We work towards timely execution and delivering best output, operating within the realm of law and governance.

## QUALITY

We believe in meeting the highest standards of quality, and delivering the best products and services in order to benefit all stakeholders involved.

## OWNERSHIP

We take responsibility of the projects and deliver on them with unflinching commitment.
